WebDev Application

Please go to the online tool using the link below and try it out!
https://chloe-661.github.io/CSC8498Coursework/

This tool is aimed at beginners to web development and is supposed to be used primarily as a teaching aid for younger students (approx. secondary school age). So please approach this task with the mentality that you are a young student that is perhaps using this tool in a classroom.

If it is possible, please try and complete a run through of the main game in Co-Op mode. You can work in groups of up to 4 people. If you work in a group, please fill out this questionnaire individually.

Please keep in mind that this is just a demo
